

Those members electing to receive all five checks on the 2nd pay of June (June 15) will receive their remaining balance in two payments. One check will include the regular bi-weekly payment plus extra hours. The second check will represent the last four bi-weekly payments.

The final net check received by the members will equal, or vary by pennies, as if they were to receive four separate checks. Deductions taken on this second check would also equal the deductions on the four separate checks.

Please see examples below:

Those deductions will be multiplied by four. You will receive the same take home pay as if you received four separate pay checks.
