# IMRF rate to increase 22.5% in 2010

## Illinois Municipal Retirement Fund General Memorandum

General Memorandum 578 October 9, 2008

### Quick Links

[Visit IMRF Online](#)

[Log in to Employer Access](#)

### IMRF's current financial status

As of September 30, 2008, we estimate IMRF will be approximately 79% funded at year end. There is time to recover some losses, but we anticipate a loss overall for 2008.

Historically, bear markets have been followed by positive returns, e.g., IMRF lost 6.08% in 2001 and 8.72% in 2002, but gained 22.56% in 2003. IMRF is again positioned to participate in the recovery of the domestic and international markets.

We are projecting employer rates will increase approximately 23% in 2010. For example, a 9.27% rate in 2009 would increase to 11.36% in 2010. In October, the Board of Trustees, staff and actuaries will discuss what actions, if any, would be appropriate as rates are set for 2010.

For the remainder of this year and through January 2009, I will provide you monthly updates on assets and average projected employer contribution rates.

# FY09 Budget Summary

- Financial picture remains stable for near future
- New growth slowing down, both in enrollment and new property
- Collective bargaining contracts have been settled or ongoing with all employee groups
- Major district capital infrastructure improvements 98% complete
- 3 months of operating reserve, excluding early taxes received in June

# Major funding issues

- Salary growth over time compounds even without adding staff
- Property tax grows at a different rate thus creating funding gaps
- Cash Flow – Businesses borrow all the time. Schools need fund balances due to borrowing constraints
